

Education Law

Our attorneys have provided counsel to School Boards and School Systems to comply with the constantly evolving state federal and regulatory requirements for schools in Georgia. That advice includes compliance with applicable open meetings and open records requirements and good governance practices. The firm uses a multidiscipline approach to address the complex real estate, bonding, personnel, intergovernmental agreements, and construction requirements of school systems today. Its attorneys have successfully defended School Systems in state and federal court including claims for discrimination, breach of contract, FLSA or issues as to the siting of schools.
