

Foreclosures & Workouts

The lawyers at Bouhan Falligant have extensive experience in handling foreclosures of commercial properties ranging from real estate developments and office buildings to shopping centers and undeveloped land, as well as residential foreclosure sales. Given Georgia's unique foreclosure requirements, it is essential that Lenders utilize attorneys who are familiar with Georgia's non-judicial foreclosure procedures. The firm has handled numerous and complex confirmation proceedings, which are required in order for a lender to pursue a post-foreclosure deficiency.
